The Citizens' National's New Home

The Courier-Journal's Sunday magazine section contained two pages of handsome illustrations of the magnificent new home of the Citizens' National Life Insurance Co., at Anchorage, a Louisville suburb. The interior and exterior views of the building show that it is indeed superbly and beautifully situated. President Charles D. Pearce of the company, a Maysville man, is shown in one of the pictures, seated at his desk in his elegant office. The Citizens' Co. is booming and is now the largest concern of the kind in the South.

Never Sweats Take Double Header

The Never Sweats took a double header from the Has Beens yesterday by the scores of 11 to 1 and 5 to 3, the first game being seven innings and the last one five innings. As the Never Sweats have decided to become a permanent organization, they have decided to go by the name of "Hustlers." The Has Beens have a pretty good team, but Holland, their pitcher, plays and pitches ball like a candidate for the Old Ladies' Home. The scores of yesterday's games follow:

FIRST GAME.
Has Beens.....1 0 0 0 0 0—1
Never Sweats.....1 8 0 0 2 x—11

SECOND GAME.
Has Beens.....1 0 0 2—3
Never Sweats.....1 0 2 0—5

The batteries were as follows:
First game—T. Holland, E. Holland and O. Holland, Clarkson and Lundigan.
Second game—T. Holland and O. Holland; Clarkson and Lundigan.

Maysville Shut Out
Yesterday at Lexington Maysville didn't get a look-in at the plate, the score standing Lexington 2, Maysville 0.

The Herald says:
With his teammates playing classy ball behind him, Camnitz pitched a beautiful game for the Colts yesterday.
Vance, who pitched for Maysville, should not be overlooked in praise, as he allowed only five hits and pitched a creditable game, but Camnitz was too much for him. The support given Vance was a little more sensational than what Camnitz received, but clean hits and clever base running could not be downed.
The score:
Maysville.....0 0 0 0 0 0 0 0—0
Lexington.....0 0 0 1 0 1 0 1—2

Two-base Hits—Curtis, Crist. First on Bases—Off Camnitz 3, off Vance 2. Stolen Bases—McGraw, Edmondson. Struck Out—By Camnitz 8, by Vance 3. Left on Bases—Lexington 4, Maysville 5. Sacrifice Hits—Wessel. Time—1:36. Umpire Kelly.

SUICIDE

Miss Bessie Faul, While Despondent, Kills Herself With Carbolic Acid

This morning at 1 o'clock, at the home of her parents, Mr. and Mrs. Jacob Faul of Pleasant Ridge, this county, Miss Bessie Faul, aged 25 years, while suffering from despondency caused by continued ill health, arose from her bed, and, going to the barnyard, committed suicide by taking carbolic acid.

The young girl had threatened to take her own life several times before and her parents were fearful that she would succeed.

This morning it was discovered that she had left her room, and a search being made, she was found in the barnyard lying across a wagon, where she had fallen after taking the death-dealing draught.

Besides her parents she leaves ten brothers and sisters.

She was a member of the M. E. Church and her funeral will be held tomorrow afternoon, the interment to

Colonel J. Barbour Russell's auto stalled yesterday afternoon at Johnson's hill, near the North Fork, on the Maysville and Lexington pike, and for three hours Mr. Russell monkeyed with the machine to make it go, but she was a dead one until a tall gent from Louisville, in an auto, got out and in a jiffy he made the Russell machine "kiddap," and J. Barbour came bowling into old Maysville at 3:30, at a rapid clip as though he hadn't been marooned in the hot sun for several hours.

Rascal Who Passed Bad Checks Under Colonel R. B. Lovel's Name Now in Jail

ELIZABETHTOWN, KY., August 24th—Bernard R. Chamblay, alias J. A. Chamblay, who is alleged to have passed several worthless checks at Horse Cave and in this city, waived an examination trial before Judge D. W. Rider in the County Court today and was held over to the November Grand Jury under a \$200 bond. Calling to execute bond, he was remanded to jail.

Chamblay is said to be the same chump who responsible for the forged checks lately disseminated in the central part of the state in the name of Colonel R. B. Lovel, the ill-grocer. Mr. Lovel knows nothing about Chamblay, except that he has lawfully using his name.

In blocking the attempt to fix the limit of civil service tenure for Government clerks at seven years the President sets himself squarely against any action threatening a return of the spoils system. The veto, too, was an act of plain justice to thousands of underpaid Government employees.—Cleveland Plain Dealer.

KEEP THE SHOPS OPEN.

The nation is fairly prosperous—the mills and shops are operating full time, there has been much activity in the building trades, there is work for any man who wants it at good wages, and the crops promise to be the greatest in years.

A similar condition prevailed throughout the country in 1892, just twenty years ago. Prosperity ran high, everybody was working at good wages, and the railroads were taxed to their limit to carry the crops.

There was but one feature then, as now, that offered an opening for the Democracy—it was the era of high prices, but then, as now, it was not able to earn the money with which to pay these prices.

The Democratic editors and stump speakers created a period of dissatisfaction. They told the people that if they elected a Democratic president and a Democratic congress they would put an end to high prices. They did, but they also destroyed the ability of millions of men to earn the money to buy things with.

A Democratic college professor named Wilson was the man chosen by the Democratic leaders of twenty years to draw up the new tariff law. Then things happened. The factories were forced to close down, the mills became idle, the farmers lost their markets, the merchants lost their customers, the railroads lost their passengers and the wage earner lost his pay envelope.

The era of prosperity was succeeded by the era of charity and soup houses. In 1892 William McKinley, the great apostle of protection, was defeated for congress and the free trade shouters declared that he was politically dead and that the Republican party had gone down to the grave with him. But four years later the nation had to turn to William McKinley and the Republican party to open the mills and factories and give the wage earner an opportunity to earn an honest dollar by honest toil. The workingman of the nation was tired of being an object of charity and a beneficiary of the soup house.

For twenty years under Republican policies and principles the nation has prospered as never before. The babies of the days of Democratic hard times will cast their first votes this year. They have never experienced the want and hardships that Democratic free trade is sure to bring them. They have never known what it is to want for something to eat and to be unable to find the work with which to pay for their meal. Their fathers and their mothers bore the struggle bravely when they were pulling infants in their arms; it was they who starved and suffered that the children might be fed and clothed.

The nation at the heyday of its prosperity is again threatened with an era of free trade. Another college professor named Wilson is promising to undo the work of William McKinley and boasting that protection and Republicanism are dead. The result will lie with the first voter—the man who was ushered into this world just at the closing of another era of prosperity, who knows nothing by personal experience of what Democracy and free trade will bring to him. The generation that is being born today can tell him.

It is not heeding the warning of the past that we are to "keep the factories open," but rather to "keep the factories open," after another era of

"The Thirty and Nine;" Or, Why Stop With One?

By JOHN B. M'FERRAN, Chairman Educational Committee, Louisville Commercial Club

II.

LOOKING at our educational problems from a business standpoint, we have been turning too much to what is called higher education. I am myself a believer in higher education. I mean by that the universities, colleges and high schools and would not detract from their importance in the least, but they are already liberally provided for far in advance of our common schools.

We are told by the United States bureau of education "that more than two-thirds of our boys in the United States leave school before the end of the eighth grade;" "that the average length of a boy's schooling is less than six years, and this school training before the ages of twelve to fourteen years, while the boy is too young to appreciate his loss;" "that less than one boy in four completes the grammar grades and but one boy in eight goes any further with his schooling;" "that only one boy in forty of those who enter the first year of high school completes the course in high school, public or private, or goes higher;" "that of all boys twelve to fourteen years of age who should certainly be in school less than 60 per cent are there."

From the Sage Foundation fund's reports we are told that of 100 boys who enter the first grade only fifty-five enter the fifth grade, only twenty-seven are left in the eighth grade, six in the high school and one to enter college; that only 5 per cent of the males in the nation are fitted by definite educational training for their occupations or vocations.

These facts are given on high authority, and when we remember that they apply to the country at large and that Kentucky is probably below this average, is it not lamentable? IF ONLY ONE BOY IN FORTY COMPLETES THE HIGH SCHOOL COURSE IS IT NOT VERY IMPORTANT FOR US TO GO MORE STRENUOUSLY AFTER THE OTHER "THIRTY AND NINE?"

I think at present we, educators and all, are following the old trend of looking too exclusively toward the higher education. I think our legislative bodies have illustrated this when four years ago they made it mandatory on every county in the state to build a high school within two years. There was little mandatory concerning the poor, small schools scattered throughout the counties. These "thirty and nine" poor devils will have little chance to get within sight of a high school at all, but must plod along as best they may.

It is true the same legislature allowed the fiscal court to levy a tax of 20 cents on the \$100 for school purposes in each county. It is also true that many of the counties levying this tax have used it largely in establishing a high school at the county seat or some other town, which is unfair to these "thirty and nine" who do not get to the high school.

I DO NOT WISH TO BE UNDERSTOOD AS OPPOSING HIGH SCHOOLS OR HIGHER EDUCATION—I AM IN FAVOR OF BOTH TO THE LIMIT—BUT I AM COMPLAINING THAT ONLY ONE BOY IN FORTY SHOULD HAVE THE LION'S SHARE OF THE FEAST INTENDED FOR ALL. I THINK THIS SHOWS CLEARLY THE NEED OF MORE MONEY FOR OUR SCHOOLS, SO THAT ALL MAY HAVE A FAIR SHOW.

There is, I think, another mistake that ought to be corrected as far as possible, and that relates to the pay of teachers by location or with reference to location. The cities and large towns and wealthier portions of the counties have the pick of the teachers because they pay higher salaries and the environment generally is more attractive. Thus the back districts in the counties (where there are generally more children) are compelled to get along with the cheapest and poorest teachers. These teachers, as a rule, have the minimum salaries. Now, I hold that these "thirty and nine" out in the back districts for good results need the best teachers or at least as good as the best.

This condition can be met at once by the county boards supplementing the salaries of teachers in the poor districts out of the county funds. Such action would bring immediate relief. WHY WAIT ONE YEAR OR TWO YEARS FOR LEGISLATIVE ACTION WHEN THERE IS A TEMPORARY WAY OUT OF THE DIFFICULTY PENDING IMPROVEMENT IN LEGISLATION? Think of the uplift given to the citizens of another generation even by a single year of schooling! Is it not little short of criminal to fail to apply when it is within our power?

If we have funds enough for both high schools and "low" schools, we can use sufficient of the county fund in this way to build a high school in a city or town high school which can have but little hope to enter? Would not the reason of their improved intelligence be in time force the building of high schools

ENDORSED AT HOME

SUCH PROOFS AS THIS SHOULD CONVINCE ANY MAYSVILLE CITIZEN

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Maysville adds one more to the many cases of Home Endorsements which are being published about Doan's Kidney Pills. Read it.

Mrs. John E. Burns, Maysville, Ky., says: "The testimonial I gave in 1908, when I publicly recommended Doan's Kidney Pills still holds good. I know that this remedy is just as represented as it has been used by one of my relatives with satisfactory results. This remedy was obtained at Wood & Son's Drug Store."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

NAPOLEON'S IDEAL WOMAN

The great Napoleon, in response to a question once asked by a lady, replied "My ideal woman is not the beautiful society belle or the butterfly of fashion, but the matron who reaches middle age in complete preservation of health, with stalwart children by her side."

Thousands of middle-aged American women today owe their health to Lydia E. Pinkham's Vegetable Compound, that famous remedy for female ills, which has carried more women safely through the natural changes of her life, than any other remedy the world has ever known. If you are ill, it will pay you to try it.

RESOLUTIONS BY TEACHERS' INSTITUTE

The chairman of the committee on Resolutions read the report, which was amended by adding a resolution in regard to the chart for testing the eyes of the pupils, advocated by Miss Linda Nevill of Lexington, and adopted. The resolutions are as follows:

"Whereas, Dr. Mutchler of Bowling Green, has so earnestly endeavored to instruct the teachers of Mason county along such practical lines; and Whereas, Mr. J. W. Vaughan, our earnest Sunday-school worker, has so deeply impressed us as to our duty and to Christianity in his splendid address; and

"Whereas, our Secretary of Agriculture, J. M. Newman, gave us such an instructive talk on Agriculture and its practical benefit; and

"Whereas, Mrs. Stanley Reed, President of the Woman's Club of Mason county, in her speech before this institute appealed to us in such eloquent terms; and

"Whereas, Mr. F. C. Button, Second Rural Supervisor, gave an interesting talk to our Superintendent, Board of Education and the teachers of Mason county as a faculty; and

"Whereas, Mr. T. J. Coates, the peer of any school man, has instructed us along the Course of Study in such a helpful way; and

"Whereas, that present benefits have been derived by Mason's teachers and that future help may be presented to her boys and girls through the medium of the splendid paper of Mrs. Alberta Glascock on Domestic Science,

Therefore, be it

"Resolved, That the teachers of Mason county express our gratitude to our instructors, Superintendent, Board of Education and District Trustees for their labor and zeal manifested in their efforts to secure a more efficient and practical system of education in our Mason county schools, and be it further

"Resolved, That each teacher put forth greater efforts to bring his or her school, not on an average, but far above the average of Rural Schools, and be it further

"Resolved, That we take this opportunity, through these resolutions, to extend our thanks to the officers and members of the Third Street M. E. Church for the use of this Church during this institute.

"Resolved, That our thanks be extended to the daily papers of Maysville for interest manifested by announcing our proceedings from time to time; and, be it further

"Resolved, That we extend our thanks to Mrs. Dobyns, Miss Williams, Miss Nell Hall, Miss Goodwin and Miss Stairs for music furnished during our session; and be it further

"Resolved, That we thank Miss Holmes of Augusta, for her very entertaining recitations on Thursday. Be it further

"Resolved, That we, as teachers, of Mason county, endeavor to aid Miss Nevill in the work of improving the sight, hearing, etc., of Mason's schools.

"Resolved, That a copy of these resolutions be sent to those interested through the medium of our daily press."

Necessity For "Best" Teacher In Each School District

By JOHN B. M'FERRAN, Chairman Educational Committee, Louisville Commercial Club

III.

A FRIEND of mine interested in schools happened in Boston not long since and in going about investigating the city's schools, on reaching the lowest and poorest part of the city, was surprised to see going up a splendid, beautiful school building to cost \$375,000. He said, "Why on earth do you put such a handsome and costly building in this part of the city?" The answer was, "We want to make good, intelligent citizens out of these children, and we think this one of the important ways of doing it."

I should like to know why we pursue the unbusinesslike, illogical and absolutely unfair method of offering three kinds of teachers' certificates, especially now as the counties have the right to tax themselves up to 20 cents on \$100 for general school purposes. ARE WE DELIBERATELY TRYING TO MAKE THREE CLASSES OF CITIZENS—THE INFERIOR, THE MODERATELY GOOD AND THE BEST? In a true democracy there is no use or room for classes. Ought not our efforts to be addressed to the one object of making an average intelligent good citizenship?

Under present arrangements we are compelling the poorer sections of our counties to employ third-class teachers whose capacity will not suffer them to go above a wage of \$30 to \$40 per month, while the cities and towns and wealthier parts of the counties are paying \$60 to \$75 per month. Of course this higher pay and better environment attract the best teachers, those holding the first class certificates. Now, this is manifestly unfair and very unwise.

THE BOYS AND GIRLS IN THE LESS WEALTHY PORTIONS OF OUR COUNTIES ARE ALREADY SUFFICIENTLY HANDICAPPED BY THEIR POVERTY AND IGNORANCE. WHY, THEN, UNDER HEAVEN, ARE THEY FURTHER HANDICAPPED BY CHEAP, INCOMPETENT TEACHERS?

There ought to be, as soon as the proper legislation can be had, only one certificate granted to all teachers and that of the first class. If there are districts unable to pay in full for a first class teacher let the county board make up the difference out of the county fund, for which it was intended. THESE POORER DISTRICTS PAY THE SAME RATE OF TAX, SO FAR AS THEY HAVE TAXABLES, AS DO THE WEALTHIER SECTIONS, AND THEY SHOULD HAVE A FAIR AND LIBERAL DEAL.

This is not only generous and unselfish, but it is Christlike, and it is a wise business proposition to make good and intelligent citizens out of these less fortunate. I think when the people consider this question deliberately they will see the folly of present methods and demand a change and will get it. Therefore it would be wise for teachers to prepare themselves to get first class certificates, and I think they have no time to lose because the change when started will come quickly. The state has two normal schools and the university whose business it is to prepare teachers.

Not 25 per cent of the teachers of the state are taking advantage of these opportunities, and many of them will be left out when the change comes. I am hoping to see the day when our teachers will be better paid, but when that day dawns it will bring with it also an undeniable demand for better prepared teachers.

Hot Box Causes Disaster on Front Street—Three Cars Dumped Over

The C. & O.'s wooden viaduct or trestle, extending from the foot of Wall street to the Otton Mills, was partly demolished last night 10:30 o'clock when West bound freight No. 99, had a coal car derailed by a hot-boxing car. The derailed car dragged clear across the wooden timbers of viaduct on the river side; final y, at the end of the trestle, the car went over, dumping another coal car and a box car loaded with, all falling 30 feet to the river, making a nasty wreck, calling out rocking trains and delaying all traffic for hours. No one hurt. The box car was partly wrecked and a few men failed repairing the damage.

THE OSKAMP JEWELRY COMPANY, CINCINNATI, O., February 28th, 1912.

To Whom This May Concern: This is to certify that John L. Walsh was employed by me, for the Oskamp Jewelry Co., as watchmaker for a considerable period and during that time his work was entirely satisfactory and he was especially adept in repairing fine watches and chronographs, and it gives me great pleasure to recommend him as a first-class watchmaker.

Esplanade Square

Maysville, Kentucky.

Store and 14 Acres of Land.

We have just had placed in our hands for sale the very desirable property of Mr. Kain Cook, located at Mill Creek Church, 10 miles from Maysville; 6 miles of Flemingburg and 2 1/2 from Marshall Station, on the Maysville and Mt. Sterling Pike.

The improvements consist of 6 room frame house, practically new, store building, small slaughter house, ice house, chicken house, coal house, turkey pen and stable; plenty of fruit and an abundance of water. There is also about 14 acres of land, which makes this a very desirable place for a good live merchant and trader, or will make a nice country home, as it is convenient to school, church and railroad. We have the price very reasonable on this kind of property. You can't begin to put the improvements there for what we will ask you for the entire place—\$3,250.
